While studying a BSc in Creative Computing, I am actively in search of a summer internship in the tech industry to navigate and shape my career trajectory. A curious and forward-thinking individual, I am eager to continue my journey in the world of technology. Growing up with a dual passion for both the arts and mathematics, I am immensely excited about the creative possibilities that lie ahead. Concurrently, I am dedicated to improving my coding skills everyday, viewing them as a vital tool to bring my creative visions to life. The realm of technology, particularly Web Development and Software Engineering, captivates me. I am confident that an internship within the tech sector will not only allow me to fulfil my creative and innovative ambitions but also provide hands-on experience crucial for my professional development.
